BODY:

Odessa, Ukraine - XwaveSoft today is pleased to announce the release and immediate availability of Cloud Outliner 2 Pro, a major upgrade to their productivity app for Mac OS X. Interactive and customizable outlines are the most efficient method of organizing plans, project, and ideas in the clearest way possible. Cloud Outliner 2 Pro allows users to share their outlines between their Mac, iOS & Apple Watch devices, as well as their Evernote account. Make a change, or create a new outline, no matter where inspiration hits, and all changes are automatically reflected across all connected devices.

Cloud Outliner 2 Pro is more than just a notes app or organizer for the Mac. Thanks to its tight integration with with Evernote and iCloud, users will find it an indispensable tool both in and out of the office. Cloud Outliner offers a powerful rich-text editor, extensive import and export functionality, and the ability to share outlines with others via email and social networks. Users will find their thoughts, ideas, tasks, and other notes all available right at their fingertips, no matter where they are.

"Cloud Outliner 2 Pro was designed to allow users to create outlines whenever inspiration hits," says Denys Yevenko, owner of XwaveSoft. "The app is designed to allow users to organize their thoughts, notes, and tasks into one, shareable location - where they can be accessed from a user's Mac, iOS or Apple Watch device. By being able to access their outlines from anywhere, the app helps anyone to reduce the complexity of their business day."

Cloud Outliner 2 Pro offers a number of features to aid users in creating, maintaining and protecting their information, keeping their thoughts and ideas safely and efficiently organized.
